If the condition arises during school hours, the child must be picked up immediately.
- If your child has a communicable disease, do not send them to the program until they are fever free for 24 hours. The same applies for vomiting or diarrhea.
- If your child develops a contagious illness, either during program or outside of program hours, please email the program director as soon as possible. In some cases, preventative measures may be taken to protect exposed children from onset of the illness. All communicable diseases should be reported.
